PROFESSIONAL SUMMARY

Data Analyst with solid experience in exploratory analysis, data modeling and visualization, operating end-to-end — from data ingestion to delivering insights that drive strategic decisions. Specialist in Python, Power BI (DAX and M), SQL and Google Cloud Platform, with strong business acumen to translate complex problems into clear metrics and actionable recommendations.

Deep expertise in process automation, ETL pipelines, web scraping and data pipeline development in corporate environments. Strong communication skills with both technical and business stakeholders, with a consistent focus on autonomy, quality and scalability of delivered solutions.

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy, Matplotlib, Scikit-learn) · SQL (Oracle PL/SQL, MySQL, PostgreSQL) · NoSQL (MongoDB)

BI & Visualization: Power BI · DAX · M (Power Query) · Qlik Sense · Looker · Streamlit

Cloud & Infrastructure: Google Cloud Platform (GCP) · Google BigQuery · Docker

ETL & Pipelines: Pentaho Data Integration (PDI) · Apache Airflow

Web Scraping & Automation: Selenium · BeautifulSoup · Requests

Machine Learning: Scikit-learn · TensorFlow · PyTorch

APIs & Backend: Django · FastAPI · Flet

Spreadsheets: Advanced Excel · Google Sheets

Other: Git · GitHub · Agile / Scrum · Data Storytelling

PROFESSIONAL EXPERIENCE

Data Analyst

Oct/2025 – Present

CEHAB — State Housing and Works Company | Recife, PE · On-site

- Development and maintenance of interactive Power BI dashboards to support strategic decision-making across the organization.
- Data extraction, transformation and analysis using Python (Pandas, NumPy), ensuring consistency and quality of information.
- Creation of DAX expressions and M language for data modeling in Power BI, delivering standardized metrics and a single source of truth.
- Development of Python scripts for web scraping and internal process automation, reducing manual workload.
- Script containerization with Docker and execution/monitoring on Google Cloud Platform (GCP), ensuring scalability and traceability.
- Alignment of analytical requirements with internal stakeholders to support prioritization and decision-making.

BI Analyst

Sep/2025 – Oct/2025

beAnalytic | Natal, RN · Remote

- Built Power BI dashboards integrated with Google BigQuery and data modeling for product and marketing teams.
- Developed SQL queries for cloud-based data analysis.

IT Intern

Jun/2024 – Jun/2025

Unimed Caruaru — IT Division | Caruaru, PE · On-site

- Built ETL pipelines using Pentaho Data Integration (PDI) to integrate multiple data sources.
- Developed SQL queries in Oracle PL/SQL for management reporting.
- Web scraping and data collection automation using Python (Selenium, BeautifulSoup, Requests).
- Utilized Qlik Sense for operational data analysis and visualization.

Freelance Developer

2024 – Present

Independent Projects | Remote

- Automated PDF text extraction using OCR (Tesseract), significantly reducing manual report processing time.
- Developed an interactive Streamlit dashboard for data visualization and analysis.

EDUCATION

MBA in Business Intelligence & Analytics 360

Aug/2025 – Present

Xperiun | Data Analytics

Power BI · ETL · Dimensional Modeling · Data Engineering

Associate Degree in Systems Analysis and Development

Feb/2023 – Jun/2025

Universidade Estácio de Sá

Python · SQL · Data Analysis · Statistics

Bachelor's Degree in Aeronautical Sciences

2010 – 2013

Unifacisa — Campina Grande, PB

CERTIFICATIONS

- Google Data Analytics Certificate — Google / Coursera
- Data Scientist Training — Udemy
- Pentaho for ETL & Data Integration — Udemy
- Microsoft Power BI Data Analyst (PL-300) — in progress
